

# FINTECH TRADE MISSION TO SINGAPORE 2025

29 JUNE – 3 JULY 2025

## ABOUT GROW LONDON GLOBAL

Grow London Global is a free 12-month programme for London-based tech companies that want to expand internationally - the successor to the Mayor's International Business Programme, which has helped 1,300 London scaleups including Monzo, Revolut, Checkout.com, Brompton Bicycles, Mr & Mrs Smith and Bloom & Wild reach their global expansion goals.

The programme offers expert advice, workshops, events, networking opportunities with partners, corporates, investors, peers as well as unrivalled opportunities to make valuable contacts into your target market on trade missions across the world.

For more information, visit: [grow.london/global](https://grow.london/global)

## abound

We're changing the way lending works. We do this by combining Open Banking and AI to make better, more accurate lending decisions. Our cutting-edge tech massively outperforms traditional credit scores, allowing us to achieve 50% to 70% fewer defaults compared to the market. We've proven this at scale by lending £800m to date.

**Dr. Michelle He**  
Co-Founder & COO

## BLØTT

Blott studio is a data driven, design thinking, development agency. In practice, that means helping ambitious leaders and organisations build the teams, products, processes and even operational structures they need to close the digital skills gap within their organisation.

**Scott-Ashley Whiteley**  
Co-Founder & Director

## Carbonaires

Carbonaires connects investors and businesses to the \$1 trillion carbon removal market. We finance and de-risk high-integrity projects, generating premium credits. Our execution platform streamlines due diligence to offtake, bridging investors, developers, and buyers. With expertise in finance, science, and policy, we ensure carbon investments deliver real climate impact.

**Jessica Leigh**  
Associate, Nature-based Solutions

## FENNECH

Fennech is a next-generation Treasury Aggregator and Infrastructure Platform built for corporates, fintechs, and banks. It unifies payments, finance, and liquidity operations into one intelligent system, providing real-time visibility, automated reconciliation, and seamless integration with banking and ERP ecosystems. Designed for scale, Fennech enables our customers to quickly grow their revenues and reduce the cost of their operations — all without replacing existing infrastructure.

**Audrey Fauvel**  
CEO Fennech PTE

## GIST IMPACT

GIST Impact is a leading impact data and analytics provider that has been measuring and quantifying corporate impacts for more than 16 years. With a team of 100+ scientists, engineers, data scientists and ecological and environmental economists, GIST Impact codifies this experience within its market-leading impact platforms and datasets, covering 14,500+ companies with geographically precise, time-series data.

**Aromi Salot**  
Manager, Investor Services

## illio

Backed by a powerful analytical engine, illio has developed a truly multi-asset class marketplace to highlight and analyse any number of products across performance and risk attributes. We include What If, Scenarios and Risk/Return calculations as standard.

**Sarang Karkhanis**  
Founder & CIO

## Jigsaw

We bring front of house investment teams, legal, tax, operations and compliance teams all into one place. Consolidating all entity information into an intuitive platform that ensures the organisation is running off the most up to date information.

**Edward Kendall**  
APAC Lead

## kiteedge

KiteEdge provides AI-powered retrieval and analytics for asset managers, banks, and research firms, ensuring precise, hallucination-free insights. Our Contours platform leverages ontology-driven retrieval to bridge structured and unstructured data, enhancing decision-making. We aim to collaborate with fintech and financial leaders to refine AI adoption in SE Asia's financial ecosystem.

**James Flavin**  
Founder & CEO

# FINTECH TRADE MISSION TO SINGAPORE 2025

29 JUNE – 3 JULY 2025

Kore is a digital turn-key solution for product governance and intelligence for financial institutions. Its Product Management-as-a-Service platform KorePRM offers specialised digital tools for creating, managing, and monitoring financial products - from ideation to retirement. The platform allows organisations to build a complete digital audit trail for products and services.

**Josh Blundell**  
Client Managing Director

LemonEdge is a next-generation platform for managing private markets fund and portfolio accounting. As the first modern API-based, low-code platform for complex accounting, LemonEdge delivers performance, complexity, and fast custom requirements demanded by the industry with user experience at the center.

**Jeffrey Green**  
SVP EMEA & APAC

meCash is a blockchain-enabled cross-border payments platform powering collections, payouts, and currency exchange across Africa and beyond. Through secure APIs and multicurrency wallets, we help businesses move money seamlessly, access local payment rails, and scale globally. Our partners include fintechs, lenders, and platforms serving emerging markets.

**Adebunola Adegbuyi**  
CTO

Regulativ.ai is an innovative AI-powered compliance platform that automates regulatory processes for fintech, cybersecurity, and payments industries. By streamlining audits, risk assessments, and reporting, we empower businesses to navigate complex regulatory landscapes efficiently while reducing costs and enhancing operational resilience. Regulativ.ai is transforming compliance into a strategic advantage.

**Mark Weston**  
Co-Founder & CFO

Revenir is a pioneering FinTech transforming tax reclaims for retail and corporate clients. Through its embedded API solution, Revenir seamlessly integrates with partners to automate tax refunds, enhancing their service offerings while ensuring a frictionless experience for end users. Traditional tax reclaim processes are complex, time-consuming, and difficult to navigate.

**Shawn Du**  
Founder & CEO

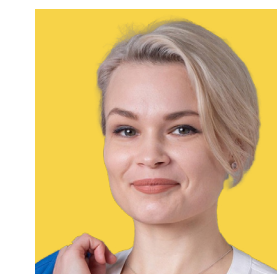

SaaScada is a cloud-native data-driven core banking engine. We do things differently; our data architecture represents an industry-first in banking technology, and our Product Sequencer signals an end to costly siloed product modules. We empower innovators to create cost-effective first-class banking products faster and with unrivalled real-time insights.

**Nelson Wootton**  
Co-Founder & CEO

Velexa is a WealthTech company that empowers financial institutions of all sizes to seamlessly integrate digital investment products and services into their offerings, enhancing customer experiences and engagement. By offering customizable investing platforms, Velexa aims to democratize access to wealth management, enhance financial literacy, and unlock opportunities for investors globally.

**Liene Laksa**
